IRMA SPORTS DAY, JUNE 13th

Preparations for Irma's annual sports day to be held on June 13th under the auspices of the Irma Agricultural Society are well under way, and several good baseball teams are now lined up. It will be remembered that the class of baseball at the sports day last year was some of the best seen in this part of the province last year and the committee in charge are endeavoring to repeat the success of last year.

The Viking Elks Band will be here in full force to furnish music, and the Viking Elks baseball team have already entered the tournament.

Other attractions are a Tug of War between the North and South side of the track, catching the greasy pig, and the little porker, High Jumping for Horses, foot races for young and old, and many other interesting events.

A dance in the evening will wind up what will no doubt be a great day in the history of the town and district. Let's go!

NEWS ITEMS FROM KINSELLA

Sometime ago the Viking Women's Institute was very pleased to receive an invitation from the Kinsella W. I. to pay them a visit on the 26th of May. The invitation was very welcome and on Saturday twenty-four of the Viking members entertained for Kinsella. Despite the heat of the day, the meeting was all that could be desired. The cheery welcome, the happy interchange of thoughts which these meetings lead to further does much towards creating a larger community spirit which is the aim of the Institute. A very interesting meeting was held at which an excellent paper was given by Mrs. Miller on the "Life of Helen Keller."

Mrs. Hyslop gave a short address in her usual good form. Mrs. H. M. Hilliker in her pleasing manner replied to words of welcome by Mrs. McKee. Mrs. Burgess gave a very acceptable reading, after which a word contest was held. Mrs. Burnham and Mrs. Hummel winning the prizes.

A delightful luncheon was then served, and as it was nearing train time, Good-byes were said and twenty-four ladies arrived safely home at 6 p.m., feeling very thankful to the Kinsella W. I. for a pleasant and profitable afternoon.

Mrs. E. C. Williams is attending the Women's Institute Convention at Calgary this week. She is the delegate from this Institute.

Mr. P. J. Wangness returned from Edmonton last Wednesday morning with a new car—a Hupmobile.

Mr. and Mrs. Ross Eaton and Mrs. Wm. Anderson spent last Wednesday at Wainwright.

Miss Thelma Miller spent the weekend at Quinte with Miss Clark. Mrs. Lewis and son, of Clark Manor had tea with Mr. and Mrs. Anderson Sunday evening.

Mr. Schultze who suffered a stroke a few weeks ago was seen at Edmonton Monday evening. He is entering the Salvation Army Home.

Miss Lane, Eileen Thorson and Master Ralph Thorson spent Saturday afternoon at Wainwright.

Mr. and Mrs. D. Corbett and son Jack and Miss Bessie Hart were at Vegreville, Lavo, Minburn and Viking on the 24th.

SERGEANT DUNCAN NEW A.P.P. OFFICER

Sergeant Keith Duncan, A.P.P., of Blairmore, and formerly of Wainwright, has been promoted to the rank of sub-inspector and will be in charge at Red Deer of "B" division, succeeding the late Inspector D. G. Fisher. Inspector Duncan has arrived and is now in charge here.

"Juice" from Calgary

Thursday the Village Council met a representative of the Calgary Power Co., and signed an agreement which is subject to the approval of the Utilities Commission, whereby the Power Company will supply electric energy for the citizens of Irma. Mr. Eford has also sold the power company his plant and distributing lines. The same company has a similar agreement with Hardisty and Wainwright and most of the towns between here and Calgary.

BOY DROWNS IN MOTT LAKE

On Saturday morning last the first drowning accident occurred at Mott Lake in the Park, the victim being Ross, the thirteen year old son of Mr. and Mrs. William Treffry.

From what can be gathered Mr. and Mrs. Treffry, who are on the park staff, moved their camp to the north end of the park to be with the "fence gang" on Tuesday of last week, leaving their son and youngest daughter, aged 12, at the south end to finish their school year.

On Friday night these two children came to the camp to spend the week end with their parents. Early on Saturday morning Ross went to a spot at the lake which is near the "fence" bathing spot—and dressed in underclothes and overalls, paddled into the water. His elder sister saw him in the water, and soon after she heard him shout. On turning she saw his hands and arms disappearing under the water, and at once raised the alarm for her mother, who with a younger child was alone at the camp at that time.

The elder daughter then rushed to the lake and made an attempt at rescuing her brother. In so doing the girl was nearly drawn under the surface on account of the roughness of the wind and water. Finding herself unable to give aid in this respect she then rushed to a car and started for the residence of Mr. D. Davison, the gate keeper but in her excitement unfortunately collided with one of the gate posts with the result that the car was very badly smashed. She then rushed back to camp and jumped into another car standing there, with which she made another attempt to fetch aid. This car also she unfortunately drove into the wreck of the first car at the gate, and it is a miraculous thing that the girl herself was not killed in these smashes. She then ran about to get Mr. Davison, who immediately upon being notified made all speed to the scene of the drowning, after notifying doctor and police. Coroner Dr. Wallace and Const. Winnick A.P.P., were quickly upon the ground and after about forty minutes the body of the little fellow was recovered from the water. The doctor, assisted by others, worked for a time in an attempt at artificial respiration but without avail. The enquiry by the coroner proved the affair to be accidental, and an inquest was not required.

The funeral, which was held on Monday was conducted by the Rev. G. Sauder of Czar, at the home of the deceased parents at the south end of the Buffalo Park. A large crowd of sympathizers and friends gathered to pay their last respects to the bereaved parents.

Interment was at Wainwright cemetery, and the mortal remains were followed to their last resting place by a large gathering—Wainwright Star.

Frank Peterson, our local nursery man, says now is a good time to plant out that strawberry bed you have been talking about since our good local rain. Get 100 of the celebrated Sitka strawberry plants for \$3.00, or 200 for \$5.00.

Death of Mrs. Barton Lymburner

Mr. and Mrs. Jesse Allen received a message May 3rd saying Mrs. Barton Lymburner had passed away at the Forestburg hospital leaving an infant son. Mrs. Lymburner who was Miss Violet Allen before her marriage was well known in Avonlea and surrounding districts, having had charge of Passchendale school for nearly two years, and in which place she made many friends. The funeral was held on Saturday, May 5th at the Pleasant church where a large crowd of sympathizing friends and relatives gathered showing their esteem for the deceased. Many beautiful floral offerings were given. Mrs. Lymburner was laid to rest in the family plot at Pleasant churchyard with her father, two sisters and one brother who have passed before her in the last few years.

Mr. and Mrs. J. U. Allen and family and Mr. and Mrs. Orville Chass attended the funeral. Mrs. Lymburner leaves to mourn her, her husband and infant son, her mother, Mrs. F. H. Allen, and two sisters, Elsie and Pera, besides other relatives and a host of friends.

WHEAT POOL NEWS NOTES

The date for the cut-off for the 1927 Pool has been fixed for Monday, July 16th. All who have wheat to be delivered should see that it is in the elevators before that date. In past years members have gone past the cut-off date and complained that they were not given sufficient notice. The Pool wants to make sure that the information is given wide publicity this year. July 16th is the cut-off date.

Members have until June 15th, to send in their nominations for delegates. Nomination blanks are in the membership lists which recently were sent out. Each nomination to be valid must have the name of ten Wheat Pool members in the same sub-district as nominees. See to it that the man you want is properly nominated. Don't neglect this matter and then when it is too late complain about matters. The selection of delegates is a very important matter. The delegates are your representatives on the Pool organization. Their authority is supreme when it comes to a decision on Pool policies.

The International Wheat Pool Conference will be held in Regina for three days commencing June 5th. The Wheat Pool is planning on broadcasting the evening session of that Conference on Wednesday, June 6th. On that evening the speakers will be Hon. J. G. Gardiner, Premier of Saskatchewan, Hon. J. E. Brownlee, Premier of Alberta, Hon. R. A. Hoey, Minister of Education for Manitoba, Sir Thomas Allen, of the British Empire Marketing Board. It will be well worth your while to listen in to these addresses on the evening of Wednesday, June 6. The Alberta Wheat Pool has established a Field Service, composed of the following members: A. D. Babik, Vegreville; L. Normandeau, Westlock; William Pettigrew, Calgary; George Chard, Cluny; E. E. Eisenhauer, Lethbridge; Norman Nelson, Coaldale; and N. P. Davison, Calgary. The duties of this new department will be largely educational. They will assist in canvassing for new members, and will be able to give support to Wheat Pool Locals and committees.

NOTICE

Commencing next week the Irma Stores will close at twelve o'clock Wednesday, during June, July and August. They will appreciate their customers doing their Wednesday shopping as early in the day as possible.

AUTO STOLEN 8 MONTHS AGO IS RECOVERED

Arthur Baldwin, formerly of Minburn, Faces Calgary Trial. How a little co-operation between the A.P.P., the Edmonton police chief and the Calgary police chief resulted in the locating of an auto, which had been missing since September, 1927, is told in the story of an auto owned by F. W. Williams, 903 15 avenue west Calgary, and in the arrest, on a charge of stealing the car, of Arthur Baldwin, formerly of Minburn, but just now an inmate of a cell at the Calgary police station.

Williams' auto was stolen, as stated in September, 1927, and its owner had given up the car for good. Then one day, Chief Shute received a letter from Minburn, stating that Baldwin, who was known to be in a position to buy so costly an equipage, was driving around Minburn in an expensive auto.

Chief Shute forwarded the letter to the A.P.P., who checked up for any missing auto answering the description of the one being driven by Baldwin, but without result.

Then one day, in a list of missing cars from Calgary, an auto of the same make as that driven by Baldwin was noted as having been stolen in Calgary in September, 1927.

A check-up of serial numbers was instituted. The Baldwin car was examined, and, as a result, Baldwin was placed under arrest and taken to Calgary, charged with the theft of the missing Williams' auto.

Const. Miller, of Viking, made the arrest, and took the car and Baldwin to Calgary.

Alma Mater 2 P.M.

Rev. A. O. McNeil who supplied Jarro and Kinsella during the absence of Mr. Coghill was ordained at the recent conference and is being returned to Jarro as the fully ordained Pastor and Superintendent.

Rev. J. G. Coghill is going to Canmore near Banff, an easier field to work than Jarro. Proximity to a doctor, easier work and beautiful scenery it is hoped will restore Mr. Coghill to good health.

Rev. G. G. Pybus of Wainwright is going to Daysland and Rev. Norman Whitmore is coming to Wainwright. Rev. C. G. Hocken is leaving Rockyford and is going to Milo.

MUSICAL EVENING

Those who were not at Church Sunday evening missed a real treat to say the least.

The Choir was splendid even though they had given the same program twice previously that day, and although we all missed Mr. Wright from his usual place. Mr. Peterson's well-chosen talk on the subject "Loyalty" was enjoyed immensely.

The Choir gave three special numbers and everyone surely enjoyed "A Dream of Paradise." Mrs. Locke and Miss Inez Fenton taking the duet parts. This would well stand repeating. The Solo's given by Mrs. Locke and Miss Fenton in their usual charming manner were, "Is This Saviour Yours," and "His Eye is on the Sparrow," were very much enjoyed.

In closing Mr. Locke spoke a few words in appreciation for the evening we had enjoyed, and we all went away feeling, "It was indeed good for us to be here."

BUILT on a wheelbase of 107 inches—four inches longer than before... swung low to the road... and with its hood streaming back in graceful, unbroken lines to blend with contours of the Fisher bodies—the "Bigger and Better" Chevrolet is everywhere hailed as a car of outstanding distinction.

The new radiator is higher and narrower, and embellished with a large, flat, all-metal radiator cap. The hood is longer and deeper—vividly interpreting the greater stamina, staunchness and fleetness of the new chassis. Windshield posts are slender and graceful, bodies are beautifully beaded and paneled, hardware is of period pattern, and roof-lines are smartly low.

Interiors, too, are impressively rich—with new upholstery, wide, restful seats, and a beautiful enclosed instrument panel—indirectly lighted. Come, see this great new car—and you'll know why thousands have acclaimed it the world's most luxurious low-priced automobile.

The C.M.A.C. General Motors' own deferred payment plan affords the most convenient and economical way of buying your Chevrolet on time.

Eternal Vigilance Is the Price Of Safety

Because of the appalling loss of life through motor car accidents, Governments and municipalities are enacting ever more stringent laws governing the use of highways and the operation of automobiles. Laws regulating the speed of driving, governing the use of headlights, compelling cars to come to a full stop before proceeding to cross railway tracks have been passed, while signalling devices, signs, guard rails at curves, embankments, and other danger spots are erected—all with a view to protecting the public.

For the same reason laws are passed and regulations enforced governing the management of factories, mines, operation of railways and ships, laying down conditions under which women and girls may be employed, and stipulating a hundred and one things which must be done to safeguard workers in all departments of industrial life.

According to figures, the correctness of which are vouched for by the Midwest Safety Conference, as reported in a San Francisco paper, there were 24,000 deaths in the United States last year through traffic accidents, and 23,000 deaths through industrial accidents almost all of which were preventable.

But it will be a surprise to many to learn that accidents occurring in the homes of the United States took an even greater toll of life than did traffic accidents, or accidents in industry. Avoidable accidents resulting in death in United States homes in 1927, numbered 27,000, and, according to the report already referred to, "the bathtub and the staphylococcus were among the deadliest adjuncts of domestic life, and the two combined contributed a large proportion of these 27,000 home fatalities."

Traffic regulation and industrial safety laws are the business of the public as well as of the individual; hence the interest displayed by all governmental authority. Because they are susceptible of public regulation the problem they present, and which fills the newspapers today, should be easier than that of the household fatalities. As the San Francisco paper says, "It is not possible to put the equivalent of a traffic cop into every home to supervise the hanging of draperies, the dusting of walls and the training of the climbing vines. Nor would it be desirable even were it possible to have a uniformed public official handling careless people in and out of slippery bathtubs. The law cannot direct the turning on and off of gas cocks. It cannot keep matches out of the reach of children. It cannot be the keeper of the family medicine chest. It cannot make itself the custodian of the household arsenal and see that unloaded guns are always unloaded. It cannot prevent the starting of stove fires with kerosene, or the use of gasoline near a lighted lamp or a burning fire."

These and a multitude of other vigilances rest solely with the individual. Until the individual exercises the necessary caution the lurking dangers of the household will continue to take their toll.

Throughout this great Canadian west not a week passes but the newspapers tell the terrible story of a calamity in some home, resulting in death and mourning for life, the direct result of downright carelessness. A destructive fire or forest fire rages because someone neglected to put out a camp fire, or dropped a match, or started burning straw or rubbish without taking necessary precautions. An explosion wrecks a home and takes a toll of life because gasoline was left where it should not have been. A child drinks a cup of lye in mistake for water, and dies or is crippled for life. And so on, and on, and on.

And all the laws, and regulations, and prohibitions that all the Parliaments, and Legislatures, and Municipal Councils in the country may pass cannot stop these tragedies. In the forceful slang of the day "It is up to the individual" to exercise caution, to be vigilant, only so can the daily loss of life through these accidents in the home, in industry, and on the highways of our country be reduced and practically eliminated. Ninety-nine out of every one hundred of such accidents are preventable. It is for the people to realize this. When they do the accidents will cease; until they do realize it and govern themselves accordingly, sorrow, pain and loss will continue to be a permanent visitor in our midst.

Named After Lindbergh

Canadian Island and Station Will Bear Aviator's Name

Colonel Lindbergh will have the honor of having an islet in British Columbia and a station in Alberta named after him. Paul Lambert, of New York, owns a small island in Seattle Bay, near Nanaimo, B.C., and asked the Geographic Board of British Columbia and Canada to approve of the name Lindbergh for it. Neither board has objected. They claim as private property he can call it what he likes, as long as it doesn't interfere with present names.

The Dominion Geographic Board received an application from the Canadian National at Winnipeg to approve naming a railway station in Alberta after the famous aviator. The board has given approval.

If a thing must be done there is no time like the present for doing it.

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali, effective, yet harmless. It has been the standard antidote for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain de-

Sour Stomach

parts. You are happy again in five minutes. Don't depend on crude methods. Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

World's Grain Congress

Will Mark Fiftieth Anniversary Of Coming Of The Railway And Birth Of Prairie Agriculture

The first world's grain congress scheduled for Regina, in 1932, will mark the 50th anniversary of the arrival of the Canadian Pacific Railway and the birth of prairie agriculture, outside of a comparatively small earlier settlement in Manitoba. In outlining steps preliminary to the summoning of the congress, Hon. W. R. Motherwell, Federal Minister of Agriculture, announced: "The proposal to hold a world's grain congress in Canada has been quietly discussed and canvassed by a few enthusiasts in the west for the past two or three years. In the meantime, the pronounced success of the world's poultry congress has stimulated and crystallized the proposed grain congress into possibility and reality."

NEW STRENGTH FOR ALL WEAK GIRLS

Comes From The Rich, Red Blood Made By Dr. Williams' Pink Pills

There must be no guesswork in the treatment of pale, anemic girls and children. If your daughter is languid, has a pale, sallow complexion, is short of breath after slight exertion or on going up stairs, if she has palpitation of the heart, a power of appetite or a tendency to faint, she has anemia—the medical name for poverty in the blood. Any delay in treatment may leave her weak and sickly for the rest of her life. When the blood is thin and watery give Dr. Williams' Pink Pills, coupled with nourishing food and gentle out-of-door exercise. The new, life-giving blood which comes from fair use of Dr. Williams' Pink Pills, increases the appetite, stimulates the nerves and brings a glow of health to pale cheeks. Mrs. Robert Jackson, R.R. No. 5, Sherburne, Ont., praises this medicine for restoring her daughter's health. She says: "When my daughter was nine years old she was so weak and thin that she feared we would lose her. She was very nervous, and going to school seemed too much for her. Often she would have to stay at home for days at a time. At times she would faint. I tried to give her the doctor's treatment but it did not help her. I tried several remedies, but with no good results. One day a friend advised me to give her Dr. Williams' Pink Pills, and I did so. It was not very long after she began taking the pills that I could see a change for the better. She kept on taking the pills for several months, and through them grew into a strong, healthy girl. Since then, if a time has been needed at any time, it has always been Dr. Williams' Pink Pills."

The pills are sold by all medicine dealers or will be sent by mail at 50 cents a box by The Dr. Williams' Medicine Co., Brockville, Ont.

Wireless Saved the Situation

Egypt Able To Greet Afghan ruler

With the Afghan ruler's arrival in Egypt, a very embarrassing situation was averted. Egypt greeted King Amanullah and his queen with proper ceremony upon their arrival from Bombay, thanks to wireless.

A frantic message picked up by the P. and O. liner Rajputana, from an Egyptian operator, bemoaning the fact that Egypt was not acquainted with the Afghan national anthem. The purser had it wireless to Port Said, where it was deciphered—note for note—and upon the arrival of the royal pair they were greeted with a perfect rendition of their anthem.

Cheapest Of All Oils.—Considering the qualities of Dr. Thomas' Electric Oil it is the cheapest of all preparations offered to the public. It is to be found in every drug store in Canada from coast to coast and all country merchants keep it for sale. So, being easily procurable and extremely moderate in price, no one should be without a bottle of it.

Fort Vermilion Wheat

Wheat Grown Close To Arctic Circle Weighs 64 lbs. To The Bushel
Wheat from Fort Vermilion, 250 miles north of Peace River, weighed 64 pounds to the bushel and graded No. 2 without dockage. It was sent to the Alberta wheat pool by James McGraw, a farmer in that district. Although Fort Vermilion is close to the Arctic circle, wheat growing is not new in that area. In 1876 wheat grown at that point won the championship at the Centennial Exhibition at Philadelphia.

Ideal Tourist Camp Of Calgary
The Calgary Automobile Club is planning to equip and operate what they claim will be the most modern automobile tourist camp in Western Canada. The camp will be well lighted and equipped with gas for cooking, water, shower baths, car shelters and other conveniences for the accommodations of motor tourists.

Insist on Minard's Lintment—accept no other.

PILES are quickly Soothed & Healed BY 7am-Buk

British-American Friendship

Chas. M. Schwab Says The British Are the Most Sincere People In the World

In an appeal to abolish the "hands across the sea" sentiment between Great Britain and the United States, Charles M. Schwab said at an English-speaking union luncheon that the two nations were knit together not only sentimentally but actually, and that a large factor in this union is the steel industries of the two countries. He said that Great Britain was the mother of the steel industry, but that the great British processes, including the Bessemer process, were developed in America.

"I consider the British the sportiest, truest, most sincere people in the world," Mr. Schwab said. "Nobody knows what they have suffered from the great war, and what they are now doing to get back on their feet. I am proud of my British friendship. I have received more honor from Great Britain than from my own country. I am not disturbed by the boastful, flamboyant Americans who falsely represent America abroad, and I am not disturbed by the newspapers because I know that the relations between us are not affected by such things."

First Thing Man Exploited

In 1300 B.C. Hittites Had Laws Governing Bees

The bee was probably the first created thing whose labors were exploited by mankind.

In the Hittite code of laws, dated 1300 B.C., punishments for the theft of bees and hives were mentioned. About 4000 B.C. the bee was adopted as the symbol for the King of Lower Egypt. Hieroglyphic bees were found from the First Dynasty down to Roman times, a period of some 4,000 years.

Bee-keeping was regularly practiced in Egypt in 2600 B.C.; records exist showing the conformation of the hives—mud structures placed one over the other—and the men engaged in pouring out the honey and sealing it in jars. But thousands of years before this the wild honey was extracted from rocks and trees. It was only in comparatively recent times, and in the comparatively recent years ago, that it occurred to man to reduce the bee to slavery.

Miller's Worm Powders not only make the infantile system unfeeling but, but by their action on the stomach liver and bowels they correct such troubles as lack of appetite, biliousness, and other internal disorders that the worms create. Children thrive upon them and no matter what condition their worm-infested stomachs may be in they will show improvement as soon as the treatment begins.

Increase In Tobacco Production
Production of tobacco in Canada in 1927 totalled 43,918,700 pounds valued at \$9,112,278, an increase over 1926 of 15,092,700 pounds in production, and \$1,732,798 in value. Last year 44,028 acres were sown to tobacco in Canada or 10,672 acres more than the previous year. Ontario planted 33,650 acres, Quebec 10,918 acres, and British Columbia 560 acres. The average yield per acre was 997 pounds.

WOMAN SO SICK COULD NOT WORK

Helped by Taking Lydia E. Pinkham's Vegetable Compound

Grainland, Sask.—"I am glad that I heard of that good Lydia E. Pinkham's Vegetable Compound and I will not be without it again. I was sick that I could not work at all and could not sew on the machine. My aunt told me of Lydia E. Pinkham's Vegetable Compound and I am telling all of my friends how good it is and I will answer all letters I get from women." Mrs. MARY SCHULTZ, Grainland, Sask.

Preparing For Trial Flights

Luxurious British Airship Built For London-New York Traffic

From New York to London in 48 hours, and with all the comforts of the most luxurious ocean liners! This may sound like a dream of Jules Verne but it will be accomplished this year by the R-100, a British airship, built under direction of Commander C. Dennis Burney, M.P.

The Burney ship, of 5,000,000 cubic feet displacement, has progressed so far that it is expected to be ready for trial flights in July.

American capital has become interested in the R-100 and a Detroit group has taken an option on a substantial interest in the Burney Company with a view of establishing a fleet of six 9,000,000 cubic feet air liners built on the Burney design and for use in London-New York traffic.

Half of these ships will be built in the United States and half in England with the operating company owned jointly by British and American capital.

The R-100 will carry 100 passengers and ten tons of express freight. It will be able to make the eastward passage in 48 hours and the trip from London to New York via the Azores in 60 hours. The southern route on the westward passage is contemplated to avoid high winds.

If plans for the trans-Atlantic airship company materialize, the R-100 will be used as an experimental ship, followed by the larger dirigibles with capacities for 140 passengers and 20 tons of freight.

The R-100 has been furnished, the steamers are completed and rugs have already been laid in the dining saloon.

Most Unusual Job

Going Through Hotel Waste Paper Baskets To Retrieve Lost Articles

Waste-paper baskets sifting is an unusual job, but one that is highly important in large hotels. Most lost articles are found in waste-paper baskets, and in some hotels there are people who spend most of their working hours going through the vast quantities of papers and cast-off articles placed in waste-paper baskets by guests. Many thousands of dollars' worth of jewelry, valuable papers and such things as theatre tickets, railroad and steamship tickets and pieces of wearing apparel are discovered every month. One of the most expensive amethysts in the world, owned by a guest who wears it as a pendant, was picked up in waste-basket rubbish less than a month ago. Recently, too, there were two \$100 bills found in the trash that was sent down from a guest room.

As a vermicide an excellent preparation is Mother Graves' Worm Exterminator. It has saved the lives of countless children.

First Elevator In Angola

Another Western Importation Added To Turkey's New Capital

The first elevator has been placed in one of the buildings of Turkey's new capital.

Thus another red-letter day has been added to the series commemorating the construction of the first new house in the erstwhile village, the first turning of the tap of the new water system, the first puff of heat from the first steam radiator and the first switching on of electricity.

But the elevator, latest importation from the West, does no elevating as yet, for the Minister of Hygiene in whose new headquarters it has been installed has not yet been able to find any one in Angola capable of testing and setting it in motion.

Preserves Water Supply

Forests are nature's preservers of water supply. The forest floor, being porous, retains the maximum amount of rainfall. This physical condition combined with the mechanical obstructions of tree roots, retards the rapidity of run-off. Excess water is released gradually and the equilibrium of stream flow is preserved. In like manner the melting of snow in the springtime is delayed by the lower temperature and shade in the forest, so that the danger of floods is lessened.

Landlady: "You have been here three months and have never paid any rent."

Student: "But you said it would be like home here!"

Landlady: "Well, I hope it is."

Student: "At home I never paid any rent."

Thrift is a state of mind. A man buys a \$500 car as an example when he wants a \$5,000 car, and can afford no car at all.

Always have the magic WRIGLEY package in your pocket.

Soothes nerves, allays thirst, aids digestion.

After Every Meal

Are Aids To Scientists

Rats and Monkeys Contribute To Knowledge Of Diets

Rats and monkeys are, in their humble way, contributing much to the knowledge of scientists regarding dietetics, says an article in "The Bits."

At the famous Lister Institute in London, is to be found a modern "Diet Piper" in the person of Miss Henderson Smith, who has charge of some 500 rats of all ages and sizes, which occupy a regular nursery.

"People come from all over the world to see Miss Henderson's charges. They come with shudders of horror at the thought of so many 'beasties' in so small a space, but they go away charmed with the little creatures.

You must not imagine that these are ordinary rats. They are nearly all black and white, though some are entirely white with pink eyes. They are tame and friendly, and if they occasionally give a little bite—it is kindly meant.

The rats and ten monkeys near by are doing extremely important work. They are teaching scientists all about the mystery of the all-important vitamins and are contributing daily to the knowledge of dietetics.

Simple and Sure.—Dr. Thomas' Electric Oil is so simple in application that a child can understand the instructions. Used as a liniment, the only direction is to rub, and when used as a dressing to apply. The directions are so plain and simple that they are readily understood by young or old.

Post Office Has Big Job

The Canadian Post Office Department delivers over 600,000,000 letters, 350,000,000 newspapers, 100,000,000 circulars, and 40,000,000 parcels annually in Canada, according to a report from the Department. This delivery is made through about 12,440 post offices, and over 200,000 rural mail boxes extending over an area of nearly 3,700,000 square miles.

Don't Make a Toy Out of Baby—Babies Have Nerves

Much of the nervousness in older children can be traced to the over-stimulation during infancy, caused by regarding baby as a sort of animated toy for the amusement of parents, relatives and friends. Baby may be played with but not for more than a quarter of an hour to an hour daily. Beyond that, being handled, tickled, caused to laugh or even scream, will sometimes result in vomiting and invariably causes irritability, crying or sleeplessness.

Fretfulness, crying and sleeplessness are easily avoided by treating baby with more consideration, but when you just can't see what is making baby restless or upset, better give him a few drops of pure, harmless Castoria. It's amazing to see how quickly it calms baby's nerves and soothes him to sleep; yet it contains no drugs or opiates. It is purely vegetable—the fresh, natural laxative used by leading physicians prescribe it for colic, cholera, diarrhea, constipation, gas on stomach and bowels, feverishness, loss of sleep and all other "upsets" of babyhood. Over 25 million bottles used a year shows its overwhelming popularity.

With each bottle of Castoria, you get a book on Motherhood, worth its weight in gold. Look for "Chas. H. Fletcher's signature" on the package so you'll get genuine Castoria. There are many imitations.

Hon. Vincent Massey Speaks On Peaceful Relations Between Canada And The United States

"The peaceful relations between Canada and the United States are founded on practical principles," said Hon. Vincent Massey, Canada's minister of the United States in a speech before the American Peace Society, delivered at Cleveland.

In conveying the greetings of Canada, Mr. Massey said that he happened to be the only representative of British America present, and he might be permitted to add to Canada's good wishes those of Newfoundland, the British West Indies and all the countries in America which owe allegiance to the British crown.

Canada and the United States, said Mr. Massey, had gone a long way towards a solution of the problem of peaceful neighborliness.

"We may point with some pride to a tradition of tolerance and common sense in our dealings with each other," he said. "It is true in our domestic moments we refer to our peaceful border. In unrestrained merriment, but underneath our rhetoric there is solid fact. No two nations can point to an achievement like that of the international joint commission, which for fifteen years and more has been settling intricate and delicate questions in connection with the waters on our boundary line. It is a matter for deep satisfaction that, to quote a recent learned authority, in a long list of cases there can be discovered no instances where dissatisfaction has arisen over the orders of this body. Its orders have never

been disobeyed, although it possesses no powers of police to enforce its orders. What a triumph in international co-operation there is in this fact, that in all its cases this commission has never divided along national lines, and only once was it divided at all! We may well regard the work of this body as an impressive example as to how two neighboring nations, which are accustomed to trust each other, may deal with common problems."

This principle of arbitration in Canadian-American relations has been embodied in the policy of both countries since the Jay-Greenville treaty of 1794, providing arbitration as a means of settling boundary disputes. Mr. Massey pointed out. The principle then set up had been scrupulously observed ever since.

The Canadian minister expressed great faith in the practicability of the various peace movements now going on throughout the world. In spite of the sceptics, the road to peace was open.

"More human beings are now bent on preventing wars; more people are thinking in terms of peace, than ever before. Governments are directing their energies to this end as they never have done in the past. Do we hear more of war? The fact is that we are more conscious of the cruelty and futility of war than ever before, but there lies the hope that the consciousness of a disease is the first step towards its diagnosis and cure."

Seeing Sights the World Over

Possibly you have a friend who was a passenger on the round-the-world cruise of the Canadian Pacific Steamship "Empress of Australia." If so, you have already heard the stories of ports visited, and the strange sights witnessed. In clubs, homes, and lecture halls you will hear about where the passengers saw the largest Buddha in Japan, how the Whanpoo River, China, looks in the moonlight with its queer craft silently scurrying with unknown cargoes to and from various ports, while from the cabin comes the wailing of the Chinese flute.

Then there is the spectacle of the mongoose in conflict with a huge cobra, a battle royal in which the former is always the victor, usually through his habit of securing a good hold with his mouth and crushing the head of the snake. Another interesting thing is to see the Hindoo with

his flute charm a deadly poisonous snake, finally playing on the musical nerves of the reptile to such an extent that he gradually sways from side to side in accompaniment to the Oriental music. Photo shows a motor of the desert being carefully shaved by his attentive chauffeur, incidentally the owner looks over the camel's teeth to see if any are in the stage where pulling is necessary. Inset gives a silhouette at sunset on the River Nile.

Greatest Aids To Agriculture

Industry In Canada Has Received Most Benefit From Non-Farmers Agriculture's greatest aids in Canada during the last 50 or 70 years have come from men who have never farmed, J. H. Evans, deputy minister of agriculture for Manitoba, told the Legislature recently.

"A doctor who had never farmed learned in 1850 that wheat rust, had different spores, and if these could be destroyed the fungus would be eliminated," Mr. Evans said. Pathologists had been using that information as a basis for research ever since.

Pasteur, the French chemist and scientist, had brought immeasurable benefits through his "Pasterization process," evolved in 1857 to aid wine-makers whose products were spoiling. William Sanders, a druggist, had hybridized many brands of wheat to select the best and produce the grade known as Marquis.

Mr. Evans asserted that it was very encouraging to the farmers, after years and much money spent to grow better seed and better stock, to have to sell these products for a low price "dictated by the businessmen."

The Canadian Rocky Mountains consist geologically of the upturned edges of the strata underlying the Great Central Plain of North America.

Some men drop all of their money trying to pick up more.

Mineral Springs Of Canada

Spring Water With Curative Powers Occur In Many Parts Of Dominion

The production in mineral waters in Canada in 1927 amounted to 303,629 gallons, valued at \$14,686, and was derived from mineral springs located in Ontario and Quebec. Spring waters containing minerals in solution, or as they are usually termed, mineral waters, occur in many parts of the Dominion. Many of them are utilized commercially, both as potable waters and for bathing purposes. At several of the springs where the waters have curative properties, hotels and sanitariums are operated. Some of the thermal springs are utilized principally for mineral baths.

Shorthorn Cow With a Record
U. A. Roan Lady, 101st, -108547 - a registered Shorthorn cow in the herd of the University of Alberta, Edmonton, recently completed a 365 day test during which she produced 15,428 pounds of milk with an average test of 4.3 per cent, making a total of 664 pounds of butterfat. This record places her sixth highest in Canada in point of butterfat production for Shorthorn cows.

No young man can succeed if he is afraid to do a little more than he is paid for.

The notes to which the strings of a violin are tuned are G, D, A, and E.

Canadians Living In U. S. Will Erect Memorial At Ottawa As A Confederation Gift

Perfect Simplicity

A sports dress is smartest, of course, when it's simple. Style No. 837 is extremely popular. It is particularly fetching, made of striped novelty sheer woolen with the stripes reversed for the front panel. The belt is attractively slipped through openings and tied at side. It can easily be made in an hour and only requires 3 yards of 40-inch material for the 36-inch size. Two surfaces of crepe satin, printed and plain silk crepe, and georgette crepe in two-tone effect, are lovely combinations. Pattern is obtainable in sizes 16, 18 years, 36, 38, 40, 42 and 44 inches bust measure. Price 25 cents the pattern.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dress-maker. Price of the book 10 cents the copy.

A sketch of the May memorial to be erected in the Parliament Buildings at Ottawa, as a Confederation gift from Canadians resident in the United States, has just been published in New York. The sketch, submitted by Dr. R. Tait McKenzie, of Philadelphia, and approved by the National Memorial committee, symbolizes the development of Canada.

Four figures occupy the immediate foreground. On the left is Canada enthroned, her right hand on a shield emblazoned with the arms of United Canada of today, her left outstretched to receive the offerings of her children. She wears a head dress with caribou antlers and the short chiton and sandals of Diana; a youthful girl figure, the youngest of the Nations.

The central figure is a small child, the Canadian of the future, staggering under the weight of the wheat sheaf he is bringing. Behind him and partly supporting him is a stalwart youth, the Canadian of the present, relinquishing his rifle and looking forward to Peace and Industry. Behind him a young woman kneels and receives his rifle with one hand and with the other pours oil from a basket the fruits of the earth at Canada's feet.

The engineer is stepping down into the foreground with a theodolite on his shoulder. At his heels come, in procession, the lumberman, with his axe, and the fisherman with his nets, established on both coasts before the land was settled. Farther back at the side is seen a group; a woman, with a hunter's rifle and a woman and child, standing among the trees in front of the settler's cabin. On the opposite side an Inroquois Indian lurks in the forest watching them.

The upright pine trunks form a frame through which is seen the figure in low relief of Jacques Cartier on the deck of his ship, as he sails up the St. Lawrence. Kneeling behind him a Jesuit priest upholds the cross; a reference to the religious character of the first settlement of Canada.

The relief of the figures becomes lower as the history recedes but the figures on the foreground stand out boldly, almost in the round.

The panel is about ten feet square and is supported on a pedestal about three feet high on which the inscription will be carved.

There are approximately a million and a quarter men and women of Canadian birth resident in the United States. To give expression to their sentiments of pride in and devotion to their native land this memorial at Ottawa was proposed. The sixtieth anniversary of Confederation, celebrated last year, provided a fitting opportunity to present it. It will be erected at a cost of \$50,000, the amount to be raised by popular subscription among Canadians residing in the United States.

Through the courtesy of the Canadian Government the most desirable site within its gift was made available to the Memorial Committee and accepted. This location is a large panel in the east corridor of the Parliament Buildings leading to the Hall of Fame and opposite to and balancing the Memorial group already erected there to the Nursing Sisters in the Great War.

Time was of course too short to consider the erection of the Memorial itself for unveiling at the Jubilee ceremonies in Ottawa on July 1, last. A temporary tablet was therefore made, placed within the panel the memorial will occupy and in the presence of His Excellency Viscount Willingdon, Governor-General of Canada, the Right Hon. W. L. Mackenzie King, Prime Minister, and a distinguished gathering, solemnly unveiled and formal presentation made by W. W. Colpitts as chairman of the National Committee. The gift was gratefully accepted on behalf of the Canadian people by the Governor-General and the Prime Minister.

The Tablet reads: "In the sixtieth year of the Confederation of Canada and in commemoration of this event, Canadians who live in the United States will cause a memorial to be erected here in token of their devotion to the country of their birth and as a proud tribute to the achievement of its foundation."

Truth Essential To Success

I find great pleasure in a truthful man. One can depend on what he says, and learn from him. But no one pays any attention to a liar, or much respects him. I have never known a really successful man who was a liar. Men of that disposition soon learn if engaged in real affairs successfully, that untruthfulness is a drag, like a suit of clothes when in swimming.

WILL HAVE CHARGE OF WOMEN'S SPORTS

Adhering strictly to the policy that women's sports should be handled exclusively by women, the Canadian Olympic committee accepted the recommendation of the Women's Athletic Federation and appointed Miss Marie Parkes, champion, and Miss Alex. Gibb manager. They will have charge of the women track and field athletes on the trip to Amsterdam. There may be some girl swimmers recommended by the Canadian Swimming Association, and if so they will

be in charge of the ladies appointed, both of whom are eminently qualified for the position. Miss Gibb has been an outstanding figure in girls' sports for some years and was manager of the Canadian ladies' team in 1925, which visited England. Miss Parkes has been actively associated with women's sport at the University of Toronto and with the Women's Federation of Canada, of which she has been secretary since its formation.

FINDS HAPPINESS

Malika Mea Schmukler, eight years old, a Polish orphan, who travelled 7,000 miles alone to find a new home. On her arrival at the Canadian National Railways station, Winnipeg, she was met by her new parents.

Want Air Port Chief

First Time Such a Position Has Been Advertised

Probably the first advertisements of their kind are in process of issue by W. Foran, secretary of the civil service commission, as a result of the decision of the Department of National Defence, to hold competitions for the positions of air harbor manager, at the St. Hubert airdrome, near Montreal, and inspectors, civil aviation, at Ottawa. The air harbor manager will have charge under the superintendent of airways, of a public licensed air harbor, including the flying field or water surface, hangars, slipways, workshops, etc., at St. Hubert, will collect all operating fees, supervise aerial traffic and co-operate with customs officials at the port. Qualifications for the post include a license as commercial pilot and air engineer, and wide knowledge of the different types of aircraft.

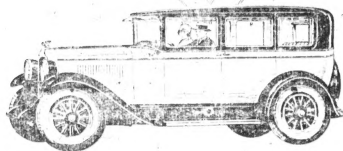

"Waiter, there is a fly in the soup."
"Well, after all, a fly can't drink soup!" - Jugend, Munich.

NEW CONFEDERATION BUILDING

Work on the new Confederation Building at Ottawa, of which the foundation stone was laid by Lord Willingdon on Confederation day last year, will be started this year. The building, which is to house government departments, will be of French chateau architecture, which will harmonize with the Chateau Laurier at the other foot of Parliament Hill. The plan resembles a broad arrow, with a main wing of 250 feet on Wellington street and a side wing of 200 feet along Bank street, a third wing bisecting the angle. The Dominion has hitherto been paying out \$600,000 annually in rents for government departments, many of which are now accommodated in old houses or store buildings.

Leads Its Field in Style and Refinements

THE New Series Pontiac Six was designed and built in the belief that everybody admires style in a motor car.

So, in Pontiac Six, everybody can enjoy it! Beautifully-proportioned bodies that tell their Fisher craftsmanship at a glance... Long, low lines and deep, massive radiator design... Rich harmonies of color in exterior Dues and interior trim... Delightful evidence of luxury in upholstery and appointments... PLUS the smoothness of Pontiac's powerful "Six" engine... the safety of Four Wheel Brakes and the comfort of Lovejoy Hydraulic Shock Absorbers.

No wonder the New Series Pontiac Six literally leads its field in style and refinement. Prove it all for yourself by a demonstration.

Ask your dealer about the G.M.A.C. Deferred Payment Plan which makes buying easy.

SECOND FORTNIGHTLY CROP REPORT

So far of what is practically completed throughout the province, and from forty to fifty per cent. of course grains have been sown, according to telegraphic reports received on Friday, by the Department of Agriculture.

The reports to date indicate that there will be some increase in wheat acreage over that of 1927 largely owing to the amount of land sown in the west and north-west. For 1928 quite a number of farmers are still holding some of their stubble ground in the hope that rain may cause a crop in the next few days, in which case wheat will be sown up to the first of June.

Much of the success of the present season's crop depends on rainfall in the next few days as precipitation during the month of May has been considerably below the average, and the probability of such winds over a large part of the province has greatly reduced the only hope of moisture on the soil. A number of districts, especially in the south, are in need of rain. It is necessary to take prompt action in certain areas of better seed from the north and west.

Early action on sowing fall wheat and clover is being well advanced in some districts. The percentage of rain sown in this season is about what better than usual.

In some southern districts the effect of rain is in need of moisture where irrigation has been delayed. A fair stand of sugar beets is reported, and worms having caused considerable damage in some fields.

In the Peace River section the season is ahead of last year and the crop on summer fallow is promising, but rain needed on stubble land requires rain to ensure an even stand.

HORSE SHOE PITCHING CONTEST

A horse shoe pitching tournament will be one of the features of the 1928 year's Edmonton Exhibition, July 14 to 21.

These competitions will be held for teams of two men each, and for individuals. The tournament will start on Tuesday, July 17th, with one of the team competitions, and the commencement of the singles. Trophies will be provided for all the contests, with an extra trophy for the winners. Also several prizes. Entries close on July 16th.

The competitions will be held under the regulations of the National Horse Shoe Pitchers Association, and the championship for Alberta will be decided at this tournament. In addition to the championship, a special prize will be offered to the man making the largest number of points in winners. Game will be played 21 points, finals and semi-finals 50 points.

Entries are open to all, and it is hoped that every rural district will be represented by a team or the champion of the district. The Edmonton Exhibition Association will be glad to answer inquiries with respect to this contest.

Horse shoe pitching has received interest all over North America, and every town, city and country crossroads has its enthusiasts. It is played in tourists camps, vacant city lots, and in villages and farms. Regulation horse shoes will be provided for the tournament; these weigh 2-1/2 lbs. are 7-1/2 inches in length, 7 inches in width, and no heel or toe caps shall project more than one and one-sixteenth inches in height over all, that is including body of shoe; the opening between heel calks shall not exceed 3-1/2 inches inside measurement, and shall be not more than one-half inch from the extreme end of the shoe determined by measurement from a straight edge placed across the heel calks.

Reports of many drownings in Alberta lakes at this early season of the year, should be a warning to all bathers and boaters to take extra caution.

There is going to be a shake-up in the Edmonton fire department as a result of the recent disastrous fires in the city. Poor methods and defective fire fighting apparatus are alleged.

There will be no summer session of the Alberta legislature. Premier Brownlee and cabinet have decided that the offers for the northern railways should not be accepted, and the province will not sell the railroads at present.

The average hen laying only in springtime does not pay. You need winter laying stock, when eggs are 60 cents per dozen. Our flocks are pure-bred for heavy egg production. Chicks 100 per cent live arrival guaranteed. 25, \$5.00; 50, for \$9.50 100 for \$18.00.
Leghorns are quoted at 16c.

Send for catalogue, or for quick service order direct. A Certificate of Breeding with each order.

HAMBLEY, HATCHERY, (Electric)
601 Logan Ave., Winnipeg, Man.

VIKING

A perfect day greeted the May Day Celebration and crowning of the May Queen here on May 24th when hundreds gathered at the fair grounds to do homage to Viking's fair Queen of the May and her attendants.

The Viking Elks Band led the procession which started from the Main square at 1:45 P.M. In the procession were the May Queen's car, the Band, the car containing Hon. Geo. Headley, minister of agriculture, and town officials, and a long array of cars that ended up at the grandstand on the fair grounds. The May Queen, Miss Vera Alexander, was accompanied by her maids of honor, Misses Dorothy Jones and Alice Jensen, flower girls and crown bearers, may pole dancers and several attendants.

After arrival at the grounds, the ceremonies of crowning the May Queen commenced. The May Queen and attendants were ushered to their places on the platform, after which Britannia, accompanied by Miss Phyllis Carter, accompanied by little Barbara Bell, crown bearer, and train bearer, Dorothy Armstrong and Anne Sheppard, crowned the Queen with dignity and poise. Britannia in a few well chosen words as follows, crowned Miss Vera Alexander, Queen of the May.

"In the name of the British Empire and of this Fair Province of Alberta, and on behalf of this community I have the honor to crown you Queen of the May."

"We are proud to have you as our Queen of the May. We wish you a very successful reign and a very happy one."

The May Queen was presented with a string of blue and white pearls, the attendants with Brooches and pins and the flower girls and crown bearer with rings appropriately engraved. If Mr. Headley made the presentation.

The May Pole dance was then given by little girls, also a folk drill by primary boys and girls, and other very excellent numbers, all under the direction of Mrs. Clark.

Hon. Mr. Headley was then introduced by Rev. Mr. Buchanan who reviewed briefly the program of the day. He had made and congratulated the Queen and her party on the successful culmination of the day's annual event, which marked the first celebration in the history of the district as well as the province. He then held a little of the large crowd with a talk upon the let or times of life and what they mean to a growing province such as Alberta.

After the conclusion of Mr. Headley's speech, a good program of sports was held.

Irma Intermediates defeated Viking Intermediates at baseball, 13 to 11; Holden men's basketball team defeated Viking's to 20; Holden then defeated Birch Lake 19 to 16 in a very fast and interesting game.

The Holden Ladies Basketball team defeated Viking Ladies by the close score of 18 to 16.

The afternoon's program closed with a picture show at Recreation hall. The refreshment booth and lunch booth served the public very well all afternoon.

The Chevrolet coupe belonging to Angus Ross was taken from his garage early Friday morning by parties unknown and driven to Calder, near Edmonton, and abandoned. The car was not missed until noon Friday when it was noticed that the garage doors were open and the car missing. Const. Miller was at once notified and soon a province wide search for the missing car was commenced. The telephone telegraph and radio were used, and by Saturday evening information was at hand that the car was at Calder, about two miles out of Edmonton. Mr. Ross motored up to Edmonton Sunday afternoon together with Mr. and Mrs. Fitzmaurice and recovered the car which was in the care of the Calder police. Two tires were missing and some tools, but otherwise the car was apparently not damaged. After securing parts at the Edmonton Motors on Monday, Mr. Ross drove the car home better equipped than ever.

The car was left on a vacant lot near Calder and parties who saw the man get out of the car and leave it, describe him as a young man wearing a grey suit, light complexion, and wore a slight mustache. Outside of that there is no clue as to the party or parties who took the car and perhaps never will be known. Angus is real fortunate in having his coupe returned at all.

William and Alfred Leclerc, of Gardiner, Massachusetts, arrived in their Ford "bug" on Wednesday last and are visiting at the home of their aunt, Mrs. Harry Cartwright. The young men travelled over 3000 miles in two weeks time. They also have relatives at Chauvin whom they will visit before returning to Massachusetts. They are delightfully pleased with western Canada and will give the natives of their own state the real dope on Canada, more particularly Alberta and Viking district on their return home.

Good Business Methods mean Good USED CARS

GOOD business conditions . . . high sales records for Chevrolet cars . . . sound methods of operating . . . all combine to make possible the standard of Used Car quality which we maintain. This quality standard has never been so high . . . yet prices have never been so attractively low.

Buy your used car where you can buy with confidence. Our reputation as Chevrolet dealers provides assurance of lasting satisfaction, whether you buy a new or a used car here. Let us show you some of our most compelling values.

"POKER HANDS"

PAINTED FIRES

BY NELLIE L. McCLUNG

COPYRIGHT, CANADA, 1925

CHAPTER XXIV—Continued.

Then he exalted war and military life. It developed the best in a man, and at this the Major bent his breast, directing his audience to that storehouse of accumulated virtues. Then he appealed to the young men to "get into the game." He painted the glory of it, the freedom of it; the army was the place where a man was a man. The nation's hero was the warrior—mollycoddies have no place in the world, especially with women. There was truth in the old song yet:

"If a lad a lass would marry—
He must learn a gun to carry."

Then in a lighter vein the gallant Major hinted at the charm of the French girls and how they admired the Canadians. His manner indicated that but for the presence of the ladies he could tell more.

While he was speaking, Pte. Crowe's hands were never still, nor did his lips cease from trembling.

The Major then called for recruits.

A Reliable Antiseptic.

Make sure no infection of cuts and wounds takes place, by applying Minard's Liniment.

HERCULES PERMANENT BUILDING PAPER

MR. THINKER—

here's your health

Most of your clients are thinkers. A few facts regarding Hercules will impress them. Hercules—in three grades, x, xx, xxx—is tested and proven wind proof and damp proof. A little thought will show them that this is all a building paper should be.

And above all, by these very qualities, Hercules becomes the protection of the most precious treasures of the occupants of any home—their health.

A sample of Hercules is yours for the asking.

Appleford Paper Products
HAMILTON, CANADA

Major was a prince of story-tellers. "Say, boys, did you hear this one? One of the boys who had been on leave . . . "Roars of laughter followed, then more beer. "Too much hard liquor is bad," laughed the Major, "but too much beer is just right. No danger of being pinched for being noisy—we have both the proprietor and the policeman. Now, listen to this. There was a French girl . . . "

At one o'clock the party broke up. The Major had secured six names. He decided the next morning to let Private Crowe go back to the City. The kid was all right, but he lacked "pep." This was a job for a real hero, and after all, the best little recruiter apart from himself, if it ever could be considered, from himself, was the amber-colored bottle. It gave just the proper warmth and glow.

Jack made his journey around by Edmonton to Eagle Mines, arriving there on the first day of February. There had been no reply to his wire. He stepped off the train, with a strangely beating heart. Helmi would be there, surely, but the platform was almost bare. Not a person whom he knew did he see as he hurried across the street and over to his own house.

The door was not locked, and he went in. A strange scene met his eyes—dirty dishes on the table, the remains of a slovenly meal; ashes from cigars on the plates; the bed showing that it had been slept in; the coffee pot was on the stove. The floor had been tramped by muddy feet and spat upon by tobacco chewers, and a forgotten pipe was on the window-sill. The air was heavy with tobacco smoke and the stale fumes of beer.

Jack's heart was heavy with apprehension. He went up to the loft by the ladder on the wall. The bed there had been used too, and a man's coat was thrown across it. There it was—the house he had built—defaced, defiled. What did it mean? He would know what it meant, he would go over to the boarding-house.

Mrs. McMann, a few minutes later, related the interview to her friend Mrs. Turner. "He bounded in at me," she said, "just when I was putting the potatoes on to boil. 'Where's Helmi?' he almost shouted at me. Without even waiting for the time of day. How could I tell him where Helmi was? 'She's not here,' I said, 'and I don't know where she is—she's been gone over a month.' I says, 'Where did she go?' he said. 'To Edmonton,' I said.

"Why did she go?" he stormed. Didn't even know I was coming back. 'Where did she say she was going?' 'Well, Helmi never confided in me, as you know,' I said.

"Land! I couldn't tell him why she went. I never was one that could talk about those things. I don't believe any of my people could. The Weekes were funny that way.

"Where's Sim?" he said at last, staring at me as if he didn't see me. 'Sim' had an accident in the mine, and went out the last train.' 'Well, look here, Mrs. McMann, who has been staying in my house,' he says, 'can you tell me that?'

"I knew very well a party of hunters had spent the night there, revelling from town out doing shootin'—drunk as fools, too—I wouldn't let them in. 'I certainly have no knowledge of what's been going on in your house since you've gone,' I said, very stiff. Mr. McMann always said there was no one could be tricker than I could when I wanted to be. 'Do you know of anyone having stayed there?'" he said. "Yes," I says, "the crazy Englishman from English Creek was there for a week, about six weeks ago."

"Lord, I thought he was going to strike me—but none of the Weekes was ever cowards, so I just glared back at him 'till as pork. I could give him eye for eye, let me tell you. He went out at that and over the the office. I think maybe he expected a letter from Helmi, but if she's written to him it's more than she's done for any of us. Gone over a month and not a word from her. And I was good to that girl, though I ain't the one to tell what I've done for anyone. Now, if Jack Doran had come in a better spirit he might have heard more from me. I'm funny that way, anyone can lead me, but strong horses can't drive me."

His voice sounded queer to him, and his tongue felt like a piece of rope. "Are there any letters for me, Mr. Armstrong?" he asked, hoping his voice was not beating like his heart.

"Two have just come, for Mrs. Doran," said the postmaster, handing them to him. "Glad to see you back to us again. Jack People come and go at Eagle Mines—come and go—it makes it hard for a postmaster."

Jack went back to his own house—he must get under cover—the eyes of the people he met hurt him—they bored into him, twisting, turning, screwing, gouging, red-hot and sharp as ice. He must get somewhere where he could shut the door.

Experience of more than thirty years proves that aluminum is the only completely satisfactory material in which to pack tea. Red Rose tea is put up only in aluminum, and a "money-back" guarantee goes with every package.

In his own house, Jack sat with the letters in his hand. Helmi had gone, she had not waited. He was a month late, but Helmi should have waited. Where had she gone?

The letters might tell him—it would be better to know. He opened the first one and found it contained a Government cheque for fifteen dollars payable to Helmi Doran, and it said it was on account of Pte. Arthur Warner. Jack stared at it without understanding.

The other letter was from Montreal. "Dear Helmi," it said, "I have made up my separation allowance to you, and I hope you will accept it from me. You are the only person in Canada who has any claim on me. I have paid every other person in Canada for everything they have ever done for me. You, dear Helmi, I can never pay in money, for you gave me the most precious thing a man can have who goes out as I am going, a memory of something tender and sweet. I have made my will, leaving everything I have to you. I will never forget your last words to me. No body ever spoke to me like that before. Will you write to me, Helmi?"

Ever Yours,
Arthur Warner.
(To Be Continued.)

MANY MOTHERS RECOMMEND THEM

Baby's Own Tablets Are Fine For Nervous, Sleepless Children

From Canada the fame of Baby's Own Tablets is spreading over the world. Mothers recommend them to other mothers and wherever they are tried nothing but words of praise are heard for these pleasant tasting little tablets. They promptly relieve the minor ailments of young children.

"Baby's Own Tablets are one of the best remedies for children's ailments I have ever used," says Mrs. Arthur T. Allen, of Auburn, Me. "My little girl was nervous and could not sleep. I tried the tablets and she was relieved at once. She was also troubled with constipation and nothing seemed to help her. I had used the Tablets but a short time before her bowels were regular. All mothers should keep Baby's Own Tablets in the house for they are really a 'miraculous' remedy. Baby's Own Tablets are sold by all druggists or will be mailed on receipt of price, 25 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont.

Cap Flur Was Ambitious

Not satisfied with his first record for night flying, Captain Toshio Kato, of the Japan aviation school at Tokyo, immediately flew again and established a new record. He hopped off at 5.30 o'clock in the evening and broke by 35 minutes his previous record of six hours in the night air. He immediately flew again and remained until 9.25 o'clock in the morning, beating his previous record of the night by three hours. Most of his flying was in dense fog.

Could Hardly Live For Asthma, writes one who after years of suffering has found complete relief through Dr. J. D. Kellogg's Asthma Remedy. Now he knows how needless has been his suffering. This matchless remedy gives sure help to all afflicted with asthma. Inhaled as smoke or taken as a liquid, the help is long needed. Every dealer has it or can get it for you from his wholesaler.

The time to take care of the coming years is this year.

Love and potatoes must be akin—they both spring from the eyes.

CUTICURA HEALS LARGE PIMPLES

Caused Itching, Burning, Also Disfigurement.

"My complexion was completely marred by pimples which varied in size. Some were large, hard and scaly, while others were just red and inflamed. My skin was itching, burning, and disfigured. I purchased more, and after using two cakes of Cuticura Soap and one large box of Cuticura Ointment I was completely healed." (Signed) W. E. Blackburn, 20 Bellevue Ave., Toronto, Ont.

Teeth and Health

Issued by The Canadian Dental Hygiene Council and Published by The Saskatchewan Dental Society

WHY "NEW TEETH FOR OLD"?

Perhaps you were wondering why little sunny had to lose his "baby" teeth and have them replaced with new ones.

Why, you asked yourself, do they not remain permanently and develop in size during the growing years just as do the ears and eyes?

Because they become "decayed" you say; but not necessarily so since tooth decay is a disease and is therefore abnormal and preventable; and for that matter, when you lose a tooth through decay at six and twenty, does a new tooth replace it?

But consider: You have seen a little sapling grow to be a big tree—large oaks from little acorns grow—but did you ever hear tell of a small pine growing to become a large stone? Not likely so, and for obvious reasons, for, as you know, the tree is of organic matter, while the stone is of inorganic.

Now the tooth, being composed largely of inorganic matter, especially the outer enamel covering, which is almost wholly so, like the pebble, cannot of itself change in form, and so grow larger once it is fully developed. Obviously too, the sunny's little jaw has no room for the larger teeth that he needs when he is fully grown.

So unlike the potatoes that "from little ones do big ones grow" we have instead, "new teeth for old."

These baby teeth then serve temporarily for mastication until the maxillary or jaw bones are sufficiently developed to accommodate the larger permanent teeth of adult age.

They are mother Nature's expedient to it were, and a good expedient too, if given half a chance.

Little Helps For This Week

"Inasmuch as ye did it not to one of the least of these, ye did it not to me."—Matthew xxv, 45.

Living, thou dost not live if mercy's spring run dry. What Heaven has lent thee wilt thou freely give.

Dying, thou shalt not die. He promised even so: To thee His lips repeat. Behold, the tears that soothed thy sigh.

Have washed thy Master's feet, Oliver Wendell Holmes.

The final test of religion at that last day is not religiousness, but love; not what I have done, not what I have believed, but how I have discharged the common charities of life. By what we have not done—by sins of omission—we are judged. It could not be otherwise. For the withholding of love is the negation of the spirit of Christ, the proof that we never knew Him, that for us He lived in vain! —Henry Drummond.

Recipes For This Week

(By Betty Barclay)

CREAM OF ASPARAGUS SOUP

Wash each stalk of asparagus carefully with a vegetable brush to remove all grit. Then cut in small pieces (using all but the very tough parts). Cook covered, until the asparagus is tender, in enough water to cover. Add salt to taste just before the asparagus is done. Allow two cups of water, and add one cup of cream to 2 cups of medium cream soup (2 cups milk, 4 tablespoons flour, 4 tablespoons butter). Season and serve hot.

Note: The less tender part may be cooked longer and put through a sieve. If desired, the tops may be used for salad.

FRUIT BLISS

2-3 cup sugar.
1-3 cup water.
2 egg yolks.
4 tablespoons lemon juice.
Red color paste.
3 cups fruit.
Boil sugar and water five minutes. Pour over egg yolks, cook over hot water until thick, stirring constantly. Add lemon juice and red color paste and chill. Pour over fruit, using peaches, oranges, red cherries and strawberries cut in pieces. Serve very cold. Serves 6.

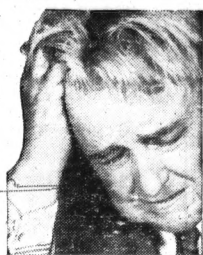

Enlisting Their Sympathy

Counsel for the victim of a motor-vehicle accident. "Gentleman of the jury, the driver of the car states he was going only four miles an hour. Think of it! Think of the agony of my client, the victim, as the car drove over his body at four miles an hour!"

"I see you are getting all the girls off your hands."

"Yes, but the worst of it is I have to keep their husbands on their feet."

Neuralgia, succumbs to Minard's Liniment.

THERE is nothing quite equal to Aspirin for all sorts of aches and pains, but be sure it is Aspirin. The name Bayer should appear on every tablet. Bayer is genuine, and the word genuine—in red—is on every box. You can go wrong if you will just look at the box when you buy it:

Salt Essential To Health

Is One Of The Four Prime Necessities Of Life

Salt is necessary to life and health. Deprived of salt, disease and ultimate death would follow. In certain parts of the world where salt is scarce, salt is used in lieu of such in trade and barter. Salt ranks with water, bread, sleep as one of the four prime necessities of life. A medical man stated recently that the chronic ill-health of many people is due to their under-consumption of salt; they take too little in condiment form, and even less in vegetables, such as cabbages, which contain valuable salts. Look at your salt-cellar. Each white grain of glistening salt is a perfect crystal. In a tiny pinch there are thousands. They will pass to every part of your body—blood, brain tissue, and bones—and do their health-keeping work.

Wrong Idea Of Sin

More should be written about the pleasures of virtue. The old theology gave the impression that sin is delightful and that those who forego it give up what is most thrilling in life.—American Magazine.

Minard's Liniment For Toothache.

"Let's look at this budget sensibly, John."

"But you can't save money even on paper."

"But I do. I got fifteen sheets of paper for 10 cents today."

Why Firestone

Tires Give Most Miles Per Dollar

The greatest enemy to tire life is not the harsh grind of city streets or rough roads, but heat, which is created inside the tire by internal friction. Heat not only weakens the fabric, but also softens the rubber, causing blowouts and tire failures.

The above illustration shows a single cord of a Firestone tire greatly magnified and unwisted into fifteen smaller cords composed of many little fibres.

By means of the exclusive Firestone Gum-Dipping process, every fibre is insulated with rubber, which prevents internal heat and friction.

Your local Firestone Dealer gives you the better—see him today.

J. C. McFarland & Co.

Main Street

Mr. J. J. Newberry is spending a week in Edmonton on business.

The Institute are having a Baby Clinic on June 19th. Watch for posters.

Mr. and Mrs. P. J. Hardy have moved into their new house on Third Ave. West.

Born to Mr. and Mrs. J. C. McKay on Monday, May 28th, a son. Boy doing nicely.

Mr. Roy Whyte returned from Vancouver Thursday to resume his position at the Irma Depot.

Mr. Ed. Lechelt, of Hay Lakes has accepted a position with Liden's Ltd. in the Irma store.

Mr. Wm. Jenkins of Beiseker, Alta. returned home Tuesday after spending a week in the Irma district.

Mrs. F. Peterson has been indisposed the past few days but we understand that she is feeling much better now.

Mr. H. G. Alexander of Vegreville has been in the Irma district the past week inspecting the steam boilers in the district.

Mr. and Mrs. Wright returned Tuesday night after attending the Conference of the United Church at Edmonton.

G. A. Tripp's new house on Third Ave., is being erected by Mr. Simmons who expects to have it completed in July.

The Irma Ladies Aid met at the home of Mrs. J. C. N. Seton Thursday afternoon. The next meeting will be held at the home of Mrs. T. Saunders, Thursday afternoon, June 14th.

Mr. and Mrs. P. J. Hardy and Mr. and Mrs. G. T. Hill motored to Edmonton Sunday returning Tuesday night. They encountered very heavy roads on the return trip.

Mrs. A. E. Peterson received word the first of the week that her father Mr. J. Olson had passed away at his home in Sweden. Mr. Olson who was in his 87th year had returned to Sweden some years ago.

Wednesday evening Mr. and Mrs. R. C. Johnson and two children arrived in Irma from Northumberland, England, under the auspices of the Soldier Settlement Board. This family is being placed on the Chas. McLean farm in the Albert district.

Mrs. Stuart, of Wainwright, will attend the next meeting of the Women's Institute to be held at Mrs. B. Long's next Thursday afternoon. Mrs. Stuart is the Wainwright delegate to the Calgary Convention and would like to meet as many Irma ladies as possible at this meeting.

Wednesday night Mr. R. G. Forrest left his new car standing near the railway track west of the station while he went inside. Shortly after a fast freight from the west came along and the suction from the train pulled the car until it caught on the passing cars. The radiator and front end of the car was badly damaged as well as one wheel and one door.

Tuesday afternoon and all night the Irma district enjoyed a soaking rain. This is the first heavy rain since seeding started and arrived just in time to give the grain that has recently been seeded a good start. In places the soil was commencing to get dry but it is now soaked down for several inches and with a continuance of warm weather all grain will get good start. With the exception of a few pieces of green feed seeding is finished for this spring. We estimate that there will be about twenty per cent more wheat sown than last spring and about the same amount of oats and barley. Sweet clover has stood the winter in excellent shape and is making rapid strides. A great increase in acreage has been sown to this valuable legume this spring and more would have been planted had the seed been available.

JARROW SPORTS

DAY, JUNE 4th

The annual Jarrow Sports Day will be held on Monday, June 4th under the auspices of the Jarrow Board of Trade. A full line of sports events, including baseball for which \$25.00 has been put up, also \$25.00 for a bucking contest, besides novelty races, foot races, horse races for which suitable prizes have been put up for all events. A big day in the evening will finish the day's amusements. The admission to the grounds is 50 cents for adults, children free.

For further information apply H. H. McDougall, president, or P. R. Ramsey, Secretary. See the posters and remember the day.

BOYS AND GIRLS SWINE CLUBS

Bacon Hog Competition 1928

Among those organizations which seek to stimulate the production of bacon type hogs in Canada, none has achieved a more active reputation than Boys' and Girls' Swine Clubs.

In eastern Canada the swine club work has been closely associated with the development of that industry. In fact, swine clubs have been responsible for renewed interest in the swine industry as shown by recent statistics whereby the hog population of the Maritime Provinces from 1923 to 1927 increased 19 per cent, against a 6 per cent. gain throughout Canada. This Maritime gain is particularly pleasing when it is realized that from 1913 to 1923, while the Canadian hog population gained 27.7 per cent., there was a decrease in the Maritimes of 14.3 per cent. In quality, improvement has met with corresponding success and 1927 figures show that 44 per cent. of the hogs marketed graded "selects" as against 16.9 for all Canada.

In Western Canada corresponding progress has been made, especially in the improvement of quality. The Manitoba Car Lot Competition (11 cars) graded 77 per cent. selects. Two clubs (Decker and Roland) both on Canadian National lines, shipped perfect loads, this being the second consecutive year in which Decker has achieved this distinction. Four clubs marketed loads grading from 80 to 90 per cent. selects. The crowning event, however, relates to Manitoba's entry in the car lot class at the Toronto Royal Fair. This entry, all Swine Club hogs—stood second in very keen competition with carlots from other provinces which in many cases contained hogs supplied by old established pure-bred breeders.

From this it must not be assumed that the ultimate in swine club work has been reached. The need for a substantial demonstration of faith in the hog business was never greater and an opportunity for sound productive effort confronts every club member in Canada.

The Canadian National Railways Bacon Hog Competition in Connection with Boys' and Girls' Swine Clubs.

Believing in Swine Club organizations and the excellent work of these clubs to date may still be expected, the Canadian National Railways again offer the following prizes for Boys' and Girls' Swine Clubs in territory tributary to their lines for 1928 competition:—

(1) The winning demonstration team of the Boys' and Girls' Swine Club from each Provincial District shall be the guests of the Canadian National Railways while travelling over their lines to the place where the Provincial Car Lot Competition is held each year.

(2) The Demonstration team of the Boys' and Girls' Swine Club winning the Provincial championship in this competition shall be presented with gold medals by the Canadian National Railways and shall be the guests of the Canadian National Railways at the Royal Agricultural Winter Fair, Toronto, Ontario, in 1928.

(3) The winning team in each Province will compete in an interprovincial competition while attending the Royal Agricultural Winter Fair at Toronto, the winners to hold for one year the Challenge Cup presented by Vice-President W. D. Robb.

Rules Governing the Competition.

1. The demonstration team shall consist of two boys, or two girls, or a brother and a sister, between the ages of 14 and 21 years on May 1st, 1928.

2. Members of the team must:—
(a) Be members of a Boys' and Girls' Swine Club, at least ten members of which are raising not less than 30 pigs.

(b) Each member care for at least two pigs for not less than four months immediately preceding date of fair.

(c) Exhibit pigs cared for at either an Agricultural Fair, a School Fair or a Swine Club Fair.

3. Each Province shall be divided into districts for the purpose of carrying on this competition.

4. The winners in each district shall give public demonstrations at such places in the Province as may be determined by the Committee in charge. At each demonstration the team shall be the guests of the Canadian National Railways while travelling over their lines.

5. District winners shall be determined on the following basis:—
(a) Forty per cent. for general efficiency in swine raising.

(b) Twenty per cent. on judging hogs.

(c) Twenty per cent. on the quality of the two hogs exhibited.

(d) Twenty per cent. on a Bacon Hog demonstration which shall occupy not less than twenty minutes and not

more than thirty minutes.

6. The championship team in each district shall compete at a point where the Provincial Car Lot Competition is held each year. These teams shall be guests of the Canadian National Railways while travelling on their lines to the point where the competition is to be held.

The Committee in charge of the Competition shall be:—

1. The Director of the Boys' and Girls' Swine Club work for the Province.

2. The Agricultural Agent of the Canadian National Railways.

For further information in connection with Boys' and Girls' Swine Clubs of this Competition, write to the Director in charge of Boys' and Girls' Swine Clubs for your Province.

The Departments of Colonization and Agriculture of the Canadian National Railways are anxious that boys & girls take advantage of this Competition and are also desirous of becoming better acquainted with boys and girls and farmers living in territories served by the Canadian National Railways. If there is any way in which the Departments can be of assistance write to:—

WESTERN MANAGER, Departments of Colonization and Agriculture, Canadian Nat. Railways, Room 100, Union Station, Winnipeg, Man.

DIRECTOR, Departments of Colonization and Agriculture, Canadian National Railways, Montreal, Que.

ROD AND GUN AND CANADIAN SILVER FOX NEWS

Taking the form of a special Ontario Tourist Number, the June issue of "Rod and Gun and Canadian Silver Fox News" which is just out is of special interest not only to all residents of that province but also the rest of the Dominion and those of the United States with whom Canada is becoming a popular vacation ground. A personal message of welcome from the Premier of Ontario to tourists as the leading article offers every encouragement to visit Canada and enjoy the delights the country offers.

The contents include a notable aggregation of articles on hunting and fishing with two very good ones. One by S. H. Howard deals with sport in the Mattawa district while a very good article by Alan N. Longstaff describes fishing in the Pickering River district. The regular departments and Canadian Silver Fox News contain the usual list of entertaining and instructive material.

"Rod and Gun and Canadian Silver Fox News" is published monthly by W. J. Taylor, Limited, Woodstock, Ont.

GAS PIPE FROM CITY TO VIKING IN GOOD SHAPE SAY ENGINEERS

Agreeably surprised at the splendid condition of the steel gas main bringing natural gas to Edmonton from the Viking field, City Engineer A. W. Hadow and Waterworks Superintendent J. W. Turner are holding back their report to the council until an analysis of soil taken from various sections of the line is made by Alberta University authorities.

The two city officials inspected that portion of the line between Tofield and Holden which is said to be particularly susceptible to trouble from the alkali in the soil, and their preliminary report to the commissioners indicates that they found the line in excellent shape and that there was little prospect of another breakdown in the service.—Bulletin.

COME AND SEE GOOD BASEBALL

(From The Viking News)

The baseball tournament to be held here on June 6th promises to be one of the best in this part of the province. Wainwright, Vermillion, Vegreville and Viking have entered teams that are a credit to the towns which they represent.

The Irma and Viking Intermediate teams will also play for a good prize. Ladies and Men's Basketball between teams from Bruce, Holden and Viking will also be featured.

The Viking Elks band will be in attendance. Refreshment booths and lunch stands will cater to all your needs in this line.

It's going to be a big day and you don't want to miss it. At Viking on June 6th.

First game starts at 12 sharp.
